ANNUAL REPORT OF THE
SUPERINTENDENT OF SCHOOLS

To The Dorchester School Board:

I herewith submit my third annual report as your superintendent of schools. If any school patrons desire specific or detailed information not found in this report they are cordially invited to ask me for it.

In these days of difficulty in securing competent teachers, Dorchester is fortunate that Miss Nellie Ashley retains the position she has successfully held for a long time.

The progress of your children is very satisfactory. Standard tests show that they accomplish expected results. The experience of those who have entered high schools from our eighth grade proves the soundness of their training. Since a regular testing program was adopted which enabled us to determine points of individual strength and weakness, most pupils have exceeded the normal school growth.

Transportation of pupils continues to be a matter of considerable worry and expense. However, with an easier situation in the tire market and plenty of gasoline steady improvement is not unreasonable to expect. School officials will be appreciative of willingness on the part of townspeople to accept transportation contracts for another year.

Your children are privileged to have as modern textbooks and as good materials of instruction as they would use if they attended city schools. It has cost a lot of money to bring our equipment to the present standard but it is a good investment in the future of the children. They are entitled to the best we can afford to give them. New geographies ought to be bought for use next year.

Cheever School has been made much more attractive by the repairs completed during the summer and fall. Neat and cheerful school environment does much to maintain pupil interest and profoundly influences attitudes towards both public and private property. Wholesome and attractive influences should surround children during their school days which are the formative period of their lives.

New window shades will be bought when price and availability are more favorable. Play space in the school yard could be greatly improved by a few loads of gravel to fill low and muddy spots where baseball is played.

Your superintendent appreciates the interest Dorchester people have in their school. The never failing spirit of friendliness and cooperation shown by the School Board has made it a pleasure to work with and for your children.

Respectfully submitted,

Arthur S. Rollins
